Continuation of Disposition of Claims: Claims pending in the application are 1-19,21-24,26,27,29-32,34,35,38-44,46-52,54-57,59,60,62-65,67,68,71-77,79-85,87-91,93,95-101,103-106 and 108.

DETAILED ACTION

1. This application has been examined. The amendment filed 1/8/07 has been entered. Per applicant request, claims 102-115 have been cancelled.

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 87-91, 93, 95-101 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. These claims are drawn to a computer medium, which based on the specification may be a signal transmitted over a network or processor, which is non-statutory subject matter.

4. Claims 1-19, 21-24, 26-27, 29-32, 34-35, 38-44, 46-52, 54-57, 59-60, 62-65, 67-68, 71-77, and 79-85 are allowable over the prior art of record. The features combined in these claims include that the image processing is carried out for the digital image file for enhancing the picture quality of digital image data stored in the storage medium by using the stored recording information to determine an optimal image processing condition, that the digital image data and recording information are stored together as an image file in an image server, that the recording condition is specific to the digital image recording device, as well as that the reproducing the digital image data on which

the image processing has been carried out is based on the optimal image processing condition. The features combined are not set forth in the prior art of record.

5. Applicant's arguments filed have been fully considered but they are not persuasive. The claims 87-91, 93, 95-101 have not been amended to remedy the 101 issue and still recite a medium, which in fact may be a signal.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
